MICEC-0038

Advanced Integrated Dual Disorder Treatment

Presented by:
Jennifer Harrison, PhD, LMSW, CAADC

Time:
8:30a-4:30p

Virtual:
2/4/2025
5/6/2025

Training link will be sent out via email 1-2 business days prior to training date.

1. Participants will understand the barriers to integrated care for individuals with co-occurring substance use and mental illness experience.
2. Participants will rehearse interventions and strategies to reduce harm, protect individuals who are currently using, advocate for resources and safety with individuals served.
3. Participants will evaluate evidence and statutes that apply to legal drugs and review trends for substance use locally, nationally including overdose risk.
4. Participants will develop plan including where, when and how to engage in assertive outreach with individuals with co-occurring needs in the community.
5. Participants will describe three different types of groups with pros and cons.
6. Participants will develop three clinical tasks to engage family members in 30 days.
